

MARTIN YALE

Martin Yale EX5000 Tabber/Labeler

EX5000

Detailed Description

Martin Yale EX5000 Tabber/Labeler. The Martin Yale EX5000 offers innovative electronic features and the ability to either tab or label in two separate passes.

The EX5000 delivers up to 7,500 pieces of standard envelope size stock per hour. Key benefits of the EX5000 include extremely quiet operation and permanent counter. On board diagnostics make troubleshooting the unit simple and easy to do.

The EX5000 works with pin-fed tabs and labels only. All accessories for both modes of operation are included with the machine.

- Labels or tabs media at a fixed speed of up to 7,500 pieces per hr
- Handles pieces 4" to 15" wide and 3" to 15" long
- Accommodates one-across pin fed labels 1" to 4" wide and 7/8" to 5" high
- Accommodates pin fed tabs 7/8" to 15/16" in diameter
- User friendly controls with LCD display of sequential prompts to assist in set-up
- Batch counter for counting of material passed through unit
- Electron Label Control Adjustment allows accurate position of labels
- On Board Diagnostics for easy troubleshooting
